## Work Experience

---

### **Entry-Level Database Administrator**

JJC Mortgage

July 2021 to September 2022

- Supported entire system administration for CRM.
- Completed over 80 internal system audits and rolled out 45+ system upgrades.
- Managed three separate data feeds. Implemented quality check that eliminated system errors that resulted in 15% in efficiency.
- Provided input on potential development on 12 projects.

### **Junior Software Developer**

DEE DESIGNS - Remote

October 2021 to February 2022

- I completed 15 web design projects for 7 different clients, utilizing Java, Python, and database knowledge.
- With 100 percent efficiency, I resolved web application issues based on external and internal reports.
- Understanding of React fundamentals was used to promote better component lifecycle practices, increasing turnaround time by 23% with 100% deadline adherence.
